

QUICKSPRAY™

2014 | English

HIGH PERFORMANCE ELASTOMERIC LINING SYSTEMS

Superior abrasion, impact and containment solutions.

INDUSTRIAL

WATERPROOFING

FLOORING

FEATURES AND BENEFITS OF VIP QUICKSPRAY™

- Spray or cast applied to any substrate and to any shape
- Rapid application and instant curing results in faster turnaround times – saving you money
- Moisture Insensitive technology for application in extreme climatic conditions
- Can be built to any thickness in one single application
- Excellent adhesion to virtually all substrates
- Excellent abrasion, impact and corrosion resistance
- Excellent resistant to most chemicals, solvents, acids and caustics
- High impact & abrasion resistance, maintains flexibility
- Seamless, impervious, flexible membranes – no joins or welds
- Formulas for Chemical containment to potable water
- 100% solids – solvent free and VOC-free
- Absorbs, vibration, impact and shock waves
- Excellent thermal stability. Remains flexible over a wide range of temperatures

APPLICATIONS FOR VIP QUICKSPRAY™

- Water and wastewater facilities – containment and processing, clarifiers, chlorination tanks, potable water storage, water channels
- Materials handling applications – chutes, hoppers, bins, conveyor belts, slurry tanks, transport equipment
- Oil and Gas – Primary and secondary containment, pipeline coatings, pipe line joints, tank linings internal and external
- Construction - Car Park decks, expansion joints, ramps, tunnel waterproofing, bridge decking, cooling towers
- Wind energy - (on and off shore), blade coatings, pylons coatings
- Secondary containment – spray in place earth bunds, reinstatement of concrete bunds
- Theming industry – Sculpture encapsulation, water parks
- Blast Mitigation
- Much, much more

- | | | |
|--------------------------------------|---|-----------------------------|
| 1. Thermal resistance | 5. Moisture insensitivity | 9. High abrasion resistance |
| 2. Resistance to atmospheric attack | 6. Sound insulation | 10. Impact resistance |
| 3. Superfast reaction time | 7. High chemical resistance | |
| 4. Environmentally friendly VOC-free | 8. Superior tensile & structural strength | |

VIP is a leading solution provider of high performance surface protection systems. Our integrated system approach includes substrate repair and preparation products, priming and pre-treatment systems, high performance coatings and superior aesthetic finishes.
